

What Others Say About Eric's Work

Eric helped us, a group of physicians with common goals, diverse personalities and varying levels of skepticism, to develop and to articulate our shared vision. He then facilitated turning that vision into practical, manageable change in our clinic and made it happen on a very real and measurable way. It is working! Thank you, Eric

AEM, Medical Director (and former lead skeptic)

Eric was terrific to work with on our diversified issues that the residency offered. The staffing mix varied from faculty physicians to the support staff both clinical and clerical. He is patient, kind and encouraging and has a high degree of skill in designing a strategy to get a group of professional individuals on the same page. His expertise was extremely valuable to implementing the kick-off of our Patient Centered Medical Home project. He is very organized as well as a strong communicator and always made certain that everyone understood the objectives and the plan and direction for the success of our goals. Or I could say "He's just plain wonderful."
